School of Education & Social Work Strategic Framework for Research with Impact: Mechanisms: our approach to promoting these objectives and monitoring progress will take account of emerging faculty developments, and include a range of forms, including as an element of:

individual research planning (IRPs) and research information systems; annual reporting formats for Research Centres;

criteria evaluating applications for study leave and internal research funding;

rigorous and constructive internal review processes for research bids;

priorities for staff development and mentoring, supported by the formal ADR process;

regular research away days, training support and capacity building opportunities
